

2023 – 2024 Travel Team Uniform Ordering Information

Welcome to the 2023-2024 Indiana Fire Academy uniform ordering process in partnership with Soccer.com. This is preliminary information to explain the upcoming uniform ordering cycle. You will receive an email from Soccer.com, which will allow you to access your account or create one at Soccer.com to place your online order. This ordering email will be sent to the primary email address listed in your player's GOTSport account at tryout registration. Please use the link provided in the email to load your player's personal ordering module on Soccer.com. If you do not receive an email by July 8, check your spam/junk folder and then email info@indianafirejuniors.com.

All orders should be placed as soon as possible. Orders will be shipped directly to your home. All uniform orders should be placed as soon as communication from Soccer.com is received, even Senior (U15-U19) teams.

If the club Directors of Coaching identified your player as a full-time goalkeeper, the goalkeeper kit and the field player kit will load for your player. If your child was incorrectly identified as a full-time goalkeeper, you will be able to alter the package to fit your child's needs as a dual field player/goalkeeper by using the recommended section. Goalkeepers should order the grey training jersey and black training short.

Note – adidas runs their Goalkeeper kits on a one-year cycle. A returning IFA player will not see the same kit as last year. Any new IFA goalkeeper or returning IFA goalkeeper should order as soon as possible as stock in certain sizes is often low toward the end of the year.

Can I request a jersey number?

Indiana Fire Academy does not accept jersey number requests. Numbers will be assigned and will allow for player movement from team to team without having to worry about jersey number conflict or asking families to purchase a new uniform if a player advances to a new team.

What will the players wear for training/practice?

For U8-U19 players, the training kit includes the grey training jersey, black training shorts and black socks. You may wish to order extra of these items as they will be worn 3-4 times weekly.

When will uniform kits be delivered?

The sooner the uniform order is placed, the sooner Soccer.com can begin fulfilling and shipping the orders to families. All orders should be placed online as soon as the Soccer.com communication is received in order to reach the goal of order fulfillment by early August.

Uniform Cost and Payment?

Uniform cost will vary based upon the uniform package and sizes needed for the player. General cost information can be found in the package detail pages below. All payment is completed through Soccer.com.

Will there be a uniform fitting night?

IFA does not have a uniform fitting night. Soccer.com does a great job of visually showing its apparel sizing online. Simply click the items sizing chart link or view the items details. Be careful if intending to order Youth sizing – make sure all jersey and short items show a “Y” in the sizing name during selection and in the cart. Customized items are not refundable if an incorrect size is selected.

Female cuts of uniform items will load for all female teams when selecting an adult size.
